March 2, 2015

To the FDLT

I was pleasantly surprised when I first learned that I was awarded the Kois Center Education Grant.

I would like to thank the Foundation for Dental Laboratory Technology for this once in a lifetime opportunity to gain the knowledge from a world-renowned educational institution that teaches the latest advances in esthetic, implant and restorative dentistry through didactic and clinical delivery. It is truly an honor to be chosen for this opportunity and I am planning on utilizing the acquired knowledge in my classrooms when teaching at Restorative Dentistry, New York City College of Technology.

Further, I have high hopes that Kois Center will help me shape an enhanced understanding of how to better prepare Restorative Dentistry graduates and the future leaders of dental laboratory technology profession for the future lying ahead.

After contacting the Kois Center, I have scheduled participation in Biomechanics I and II courses on January 25-29, 2016.

I would like to thank the Foundation for Dental Laboratory Technology for granting me this prestigious honor.

Sincerely

A handwritten signature in black ink that reads "Renata Budny".
