**September 1, 2016**

**For Immediate Release**

### **2016 NADL University Grant Awarded by the Foundation for Dental Laboratory Technology**

**Tallahassee, Florida:** Today, The Foundation for Dental Laboratory Technology (The Foundation) is proud to announce the winners of the first-ever 2016 NADL University Grant:

#### **Anthony Calonico, CDT, TE – Bolingbrook, IL Jennifer Krueger, CDT – La Crosse, WI**

Heraeus Kulzer, along with the Foundation for Dental Laboratory Technology, created this grant in order to support the Foundation's purpose by making higher-level education and dental laboratory management more accessible. Thanks to the generosity of Heraeus Kulzer, both individuals will have their tuition fee to attend NADL University (NADL U) this September in Tempe, Arizona covered as part of this grant. The cost to attend NADL U would typically be \$1,800.

"The significance of this grant is indescribable, as it assists in closing a gap that has been identified as one of the top 5 issues currently impacting the profession – the need for qualified managers in the dental laboratory industry. We thank Heraeus Kulzer for their support," said Foundation Chair, Jeff Stronk.

Heraeus Kulzer is located in South Bend, Indiana, and is one of the leading dental manufacturers and dental alloy refiners in North America with over 50 years of experience. Their mission is to support your daily work with innovative and reliable products that offer added value. Interrelated products include Pala Mondial and Pala Artic Denture Teeth and Acrylics, the Venus® brand of low stress composites, Venus White® Teeth Whitening Systems, Flexitime® Impressions Systems, Gluma® Desensitizers, and more. For additional information about Heraeus Kulzer, please visit [www.heraeus-kulzer-us.com](http://www.heraeus-kulzer-us.com)

The Foundation is a non-profit 501(c)(3) organization, whose purpose is to advance the profession of dental laboratory technology by addressing industry driven needs and providing solutions that are relevant and accessible to dental technicians and other members of the dental team. For additional information about the Foundation and its program, visit [www.dentallabfoundation.org](http://www.dentallabfoundation.org).

The Foundation's ability to increase grants and create new programs to support education and workforce training are based solely on contributions from individuals and companies. Donations are accepted throughout the year. To support the Foundation, please visit [www.nadl.org/dltf/donate-online.cfm](http://www.nadl.org/dltf/donate-online.cfm).
