2016 Spear Education Grant Awarded by the Foundation for Dental Laboratory Technology

Tallahassee, Florida: Today, The Foundation for Dental Laboratory Technology (The Foundation) is proud to announce the winners of the first-ever 2016 Spear Education Grant:

Anthony Calonico, CDT, TE – Bolingbrook, IL
Daniel Ulaszek, CDT – Bolingbrook, IL
Naoki Aiba, CDT – Monterey, CA
Paul McGrath, CDT – Bolingbrook, IL
Remington Redell, CDT – Aurora, CO

Spear Education, along with the Foundation for Dental Laboratory Technology, created this grant in order to support the Foundation's purpose by making higher-level education more accessible. Thanks to the generosity of Spear Education, each individual will have their tuition fee for a Spear Seminar course covered as part of this grant. The cost for such a course would typically be \$1,695 per seat.

"The Foundation was able to offer more grants and scholarships this year than ever before, and Spear Education is one of the many to thank for that. With the Foundation striving to improve the nation's educational climate for dental technicians, and Spear Education revolving around continuing education, it's a perfect match and opportunity for which we are incredibly appreciative, said Foundation Chair, Jeff Stronk.

Spear Education is located in Scottsdale, AZ and offers learning opportunities through lectures and seminars, hands-on workshops, online education, patient education, team education and study clubs. Specific to this grant, Spear two-day seminars provide solid, fundamental concepts, systematic treatment planning and proven steps for achieving predictable clinical results. Available topics include Treatment Planning, Occlusion, Worn Dentition, Esthetics and Implants. For additional information about Spear Education, please visit www.speareducation.com.

The Foundation is a non-profit 501(c)(3) organization, whose purpose is to advance the profession of dental laboratory technology by addressing industry driven needs and providing solutions that are relevant

and accessible to dental technicians and other members of the dental team. For additional information about the Foundation and its program, visit www.dentallabfoundation.org.

The Foundation's ability to increase grants and create new programs to support education and workforce training are based solely on contributions from individuals and companies. Donations are accepted throughout the year. To support the Foundation, please visit www.nadl.org/dltf/donate-online.cfm.
