

Keystone Grant Program Contribution Request

Deadline for Applications – October 1st, 2025

BACKGROUND

The Foundation is committed to advocating for and raising awareness of the necessity of dental laboratory technology education for dental technicians and other members of the dental team. Each year the Foundation provides financial support, in the form of grants, to various qualifying organizations.

CONTRIBUTION GUIDELINES

In considering contributions, the Foundation evaluates each application on its own merits. It considers the programs in which the organization is engaged, the constituencies it serves, the services it offers, its accountability and its fundraising practices, and the level of local community support it attracts.

- Keystone Grant winner(s) will be awarded up to \$2,000.
- Grants must be dedicated to educational institutions with a dental laboratory technology program or those educational institutions who wish to add a dental laboratory technology program.
- A school can submit more than one grant application for different projects.
- Winner(s) will be required to complete a Keystone Grant Fund Request Form in order for funds to be released. Keystone Grant funds will be paid directly to the vendor(s) or reimbursed to the applicant upon completion of the form.
- If already paid for, funds will only be released for programs/projects that have been paid for within the last 6 months.
- Funds will only be released for areas within the scope of the original Keystone Grant application. Requests for funds outside of the scope of the original approved use will not be considered.
- The Keystone Grant winner(s) will be required to provide the Foundation with testimonial (web video submission or typed submission on letterhead paper) about receiving the grant and how this experience will positively impact the DLT program, the students, and the profession, prior to funds being released.
- Funds must be used by December 31, 2025. After that time, the ability to use the Keystone Grant funds will expire. No extensions will be given.

PROGRAMS/PROJECTS CONSIDERED

The Foundation provides support to programs or projects that help develop and heighten dental laboratory technology awareness among the dental community and those that offer dental laboratory technology education. Careful consideration is given to each request. Each request is reviewed in terms of its general eligibility and conformity with Foundation guidelines, the available funds, the amount needed to achieve the desired results, and program priority.

LIMITATIONS

Grants will not be awarded for the following:

Capital campaigns, overhead/administrative expenses, endowments, advertising, or fundraising activities; Individuals; Organizations that discriminate by race, religion, color, creed, gender, age, or national origin; Political organizations or campaigns; Loans; Projects developed for commercial and proprietary purposes.
